Annual E-governance Report

Ganesar College of Arts and Science has implemented e-governance for sharing information and to manage human resource efficiently with transparency through participation and accountability from all stakeholders. The Enterprise Resource Planning (ERP) of the college is categorized as two major areas like e-administration and e-services. E-administration uses ICT for information process and decision making by the Governing body, head of the institution, IQAC and different committees formed to decentralize the administration. E-Service provides various service facilities. Most of the staff and students use smart phones to utilize the benefits of modern day technologies available in the field of higher education

A company known as **Gridlabs Solution** was selected through tender process for implementing e-governance in various domains of college administration. Students' attendance management, students' database, examination and continuous assessment record were made by automation process. Another vendor **Macons** is selected to provide necessary support for maintaining college website. A dedicated WhatsApp Group has been created at institution level and also in each academic department for sharing orders, information, direction and discussion on a common platform.

Application of e-governance in different fields are given below
