These processes use familiar statistical analysis techniques—like clustering and regression—and apply them to more extensive datasets with the help of newer tools.

Big data analytics uses advanced analytics on large structured and unstructured data collections to produce valuable business insights. It is used widely across industries as varied as health care, education, insurance, artificial intelligence, retail, and manufacturing to understand what's working and what's not to improve processes, systems, and profitability.

Workshop Report

Topic: workshop on “Research Methodology and data Analysis by using SPSS”

Date: 03-12-2021

Resource Person: Dr. P. KASIVAIRAVAN
Asst.prof.of Commerce,
APSA College, Thiruppathur

The Department of commerce organised a one day workshop on the topic **Research Methodology and data Analysis by using SPSS** on 16-10-2020. Research is the best and most reliable way to understand human issues. Working on a research project will be a challenging task for the researcher. In a current scenario, a research project is one of the most important components of PG studies.

This workshop provides a good base for the post-graduate students towards their project writing. SPSS is a comprehensive and flexible statistical package used for social science research. It helps to obtain valuable information from the data and facilitates addressing the challenges. The training commenced with an introduction to research highlighting its significance for Postgraduate students, the different types of research and the research process.

The resource person also contacts with the measurements and various scales attached. Nominal scales, ordinal scale, interval scale, and ratio scales purpose and guidelines also explained clearly with suitable examples. The workshop also focused on the importance of questionnaires, how to frame good questionnaires, Do's and Don'ts towards farming questionnaires, etc. The participants entered the sample responses collected in SPSS datasheet by them and which helps to understand fundamental concepts towards entering the data in the spread sheet in connection with the nature of the variable.

Prof. C. Balamurugan conveyed a vote of thanks to our Principal, Resource Person, faculty members, students and all of you who participated in the workshop.

REPORT

ONE DAY STATE LEVEL WORKSHOP ON "INNOVATIONS AND ENTREPRENEURSHIP"

DATE: 21st February-2022 10. 00 AM.

The national level seminar highlighted the importance of innovation in entrepreneurship its value for the longevity of a business. The seminar also emphasized on the opportunity to innovate to make the lives more comfortable and the solutions that can be evolved to make it better, easier and more useful. Entrepreneurs must keep themselves abreast with the current trends and demands. Manufacturers are constantly innovating to produce more without sacrificing the quality. Companies and enterprises keep innovation as part of their organization. Innovations contribute to the success of the company. Entrepreneur, as innovators, see not just one solution to a need. They keep coming up with ideas and do not settle until they come up with multiple solutions. Innovation is extremely important that companies often see their employees' creativity as a solution. The workshop concludes with a note on the promise from both the sides that these kind of workshops will be continued in the time.

To cultivate students full of innovative ideas and entrepreneurship desires to become future entrepreneurs, the Centre for Innovation of the UM provides this seminar series of innovation and entrepreneurship to all undergraduate and postgraduate students for the first time. To train innovative thinking and teach basic entrepreneurship knowledge, the series aims at helping participants develop innovative products and services, make business plans, start entrepreneurial marketing, protect intellectual properties, evaluate the project value, and prepare for financing and road show.

The seminar series contains: how to build a startup team, writing a business plan, financing for a startup, techniques for road show, entrepreneurial planning, frontier technology, etc. During the classes, students try to form a mock company by themselves, learning and practicing market segmentations, evaluation of technical feasibility, competitive position, business model, marketing strategy, analysis of sales channels and other practical exercises which make students more familiar with entrepreneurial methods. In the end, students could try to become entrepreneurs and apply for incubation in the Centre for Innovation. Some projects of last year have made a great stride in the Greater Bay Area and have won prizes in national innovation and entrepreneurship competitions. It is hoped the teams could do even better.

ABOUT THE COLLEGE

Ganesar College of Arts and Science is situated in the village Melasivapuri which is near to the historical city Parambu Nadu (Piranmalai) ruled by the lord of the hill country Vallal Vel Pari. It is a remote area, which is a drought-prone one. While struggling to keep their body and soul together, it was impossible for the people to spend money for the education of their children. Realizing the misery of the people of this area, two kind hearted patrons from the family of V. PL. S., came forward to light the light of education. Sanmarga Sabai was registered under the Societies Act XXI of 1860 on 13th May 1909. V.PL.S. Palaniappa Chettiar and his brother V.PL.S. Annamalai Chettiar founded the Sanmarga Sabai and Ganesar Senthamil Kalloori. It is one of the primordial colleges of Tamil Nadu and now the congregation (Sanmarga Sabai) multiplied and gowned for more than a century with the harbouring support of the brother's descendants.

ABOUT THE DEPARTMENT

Ganesar College of arts and science is one of the famous colleges and it has a long term tradition and antiquity. The Physics Department was started in 1996 as a part of Computer Science Department in Ganesar College of Arts and Sciences. Considering the importance of Physics in the modern world, Physics Department was converted into a separate department from 2015. In 2020, its laboratory was expanded for students' improvement. The physics department is working for rural students to improving their science knowledge and researching ability
