We are happy to inform you that our Institution is organizing a "WORKSHOP ON "Listening Comprehension: From Elementary to Higher level" for students on 8TH February, 2022 in our college campus. We would appreciate if you accept our invitation and your guidance will enhance the power of experiential learning.

OUTCOMES

- Listening comprehension has been ignored in many English language programs. Listening comprehension is a complex process.
- The strategies of listening comprehension must be used simultaneously.
- We must understand the text as we listen to it, keep the information in memory, combine it with what follows and adjust our comprehending of what we hear through previous knowledge and next information.
- Listening activities should be arranged from basic to more complex as the learners gain in English language.
- It is hoped that the findings of this study contribute to the improvement of teaching and learning in listening comprehension.
